

# Retro-fit Your House Today

Bring safety with comfort to your house

Prepare your or your loved one's home for aging in place.

**Every three senior citizens for 10000 die due to fall in Bathroom**

**Every five senior citizens for 10000 die due to fall from staircase**

**Every 6 senior citizens for 10000 suffer a lot while using the toilet**

# **A Senior-Friendly Home?**

**It's your need of the hour**

**With less worry and more safety, you can make each day a real page-turner.**

We want your home to be too big to hold all of your emotions and too small to hold all of the dangers at this age.

**360-DEGREES HOLISTIC SOLUTION**

**Safe & Secure**

**Threshold-free  
access**

**Comfort**

# **Smooth surfaces for easier mobility**

**Add non-slip flooring in the entryway inside the home.**

**Outside the home, add non-slip strips or scuff the surface to create improved footing.**

**create a no-rise entry with ramps.**

**Repair uneven or cracked areas on the walkway toward the home**

**Enter Your House effortlessly**

**PEEPHOLES IN DOORS TO SEE WHO IS VISITING BEFORE OPENING THE DOOR**

**WALKWAYS FREE OF DEBRIS,  
OVERGROWN PLANTS  
AND/OR UNEVEN SURFACES**

**Make the appliances work for her, not the other way around.**

Switch to kitchen appliances with easy-to-read controls and simple-to-use push button interfaces

Convert to glass cabinet doors so your loved one can identify items without effort.

Microwave drawers are a great addition to the aging in place home

**A SMALL FIRE EXTINGUISHER IS  
NEAR THE STOVE/OVEN**

**GOOD LIGHTING – BOTH GENERAL  
AND FOR TASKS**

**Build A Kitchen  
to Be Beloved**

Our goal is to increase accessibility and prevent bending and crouching

# **Create a Bathroom as this side of a Paradise**

Ad slip-prevention flooring throughout the bathroom and shower area. Non-skid bath mats, non-slip strips in the bath and shower or stable secure bathmats with non-slip rug tape all work.

Use U-shaped, vertical or angle bars rather than diagonal bars. Diagonal bars create hand slippage and may increase the risk of falls.

NON-SKID MAT OR STICKERS IN SHOWER OR TUB

Give your loved one a better grip

Back wall: Full or partial length of the bathtub

Thick lines represent wall studs that are located behind your bathroom wall

Faucet wall: Vertical and/or horizontal bar

STURDY GRAB RAIL FOR TUB/SHOWER AREA AND TOILET IF NEEDED/POSSIBLE

# **Repave and reconstruct level for easier mobility.**

Increase stair visibility by using contrast strips on the top and bottom stairs. The color contrast between the treads and risers on stairs

If you must have stairs, install rails on both sides of the stairs. These should be at least one-and-a-half inch in diameter to accommodate aging grips

# Transform entryways into safe zones

HANDRAILS ARE SECURELY ATTACHED  
AND ON BOTH SIDES

STAIRWAY IS FREE OF DEBRIS OR  
CORDS AT ALL TIMES

**A place that is  
comfortable, safe, &  
secure for everyone**
